

AI VEHICLE JETBOT

Build Your Own
Autonomous Robotic
Vehicle

Driven By
NVIDIA JETSON NANO

Course Content

Hardware Basics

Robotics, Jetbot operation

AI Software Fundamentals

Linux, Jupyter Notebook, Python

Deep Learning

AI models, Computer vision

Hands-on Experience

Build from scratch, Practical

What You Will Learn?

Learn robotics basics, AI concepts, and Python programming through hands-on projects with the NVIDIA JetBot. Discover real-world applications and see your code come to life!
